EMBLEM ALIVE™: THE ULTIMATE VEHICLE CUSTOMIZATION

Emblem Alive™ makes car emblems come alive with sound, action, and motion!

There are thousands of products available to customize a car's performance or handling. There are even more products for unique interiors, exteriors, lights, and sounds. But, in the midst of all the products and kits out there, no one has been able to alter their car's emblem...until now.

Emblem Alive™ is the most impressive vehicle customization. It allows a car's emblem to actually be adapted! Using patent pending VeSAM™ technology, Emblem Alive adds motions to the car emblem. Motions include moving the emblem away from the vehicle at various speeds, twisting the emblem, etc. Precision actuators put the emblem in motion. Sounds are emitted by a high fidelity speaker system. The sounds match the make of vehicle. For example, a Ford Mustang can sound like a galloping horse! Actions are also available. Imagine the Ford Cobra spitting out water! You've got to see it to believe it.

Our product debut was at the 4th Annual Car Show at Jeff Gordon Chevrolet in Wilmington, North Carolina. The Tri-Beach Cruisers Car Club sponsored the event. We had a very successful debut of the Camaro and Mustang prototypes, and wowed hundreds of visitors. Emblem Alive is unlike anything they've ever seen before.

The choices are amazing. The possibilities are endless. Emblem Alive is the way to make a vehicle stand out in a crowd.

EmblemAlive.com™ is owned and created by JEPP Industries, Inc. JEPP Industries, Inc. was established in 2010 for the purpose of creating a wide range of innovative and cutting edge products.
